

Step 6
Sew the ends of the line into the nearest seed beads, cut them off and you have finished the heart (fig. no. 6).

NECKLACE MADE OF PRECIOSA SEED BEADS

Conjoined *hearts*

PRECIOSA

Conjoined hearts

Create several hearts according to this simple tutorial. Connect the hearts together to create a romantic necklace that is suitable for more than just Valentine's Day. Combine seed beads from the PRECIOSA Terra Intensive and PRECIOSA Terra Intensive Lining collections and you will be pleasantly surprised by the results!

- a 0.20 mm line; a sewing needle; scissors;
pliers

Difficulty: ●●●●●

Technique: beadweaving

Procedure:

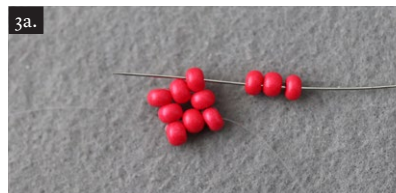

Step 1
Cut off ca 80 cm of the line. String 4x red R6 (fig. no. 1a) and tie the ends together near the end (fig. no. 1b). Thread the line around the base several times.

Step 2
String 1x red R6 and pass the needle through the adjacent R6 in the base (fig. nos. 2a and 2b). Insert 1x R6 between all the base seed beads in this manner, i.e. a total of 4x (fig. nos. 2c and 2d).

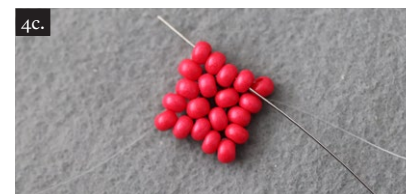

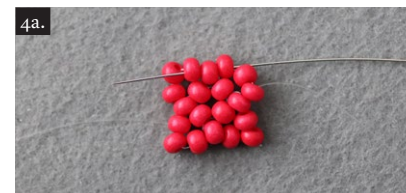

Step 3
The line will protrude from an R6 added to the second row. String 3x red R6 and pass the thread through the other R6 added in the second row (fig. nos. 3a and 3b). Repeat this 3x. When adding the last three R6, pass the needle not only through the R6 added in the second row, but also through one R6 added in the third row (fig. nos. 3c and 3d).

Step 4
Thread the needle through every other R6 in the next three R6 (fig nos. 4a and 4b) so that a kind of point emerges. Simply always omit the top R6.

Repeat this all the way around, but in the last step pull the needle through one of the four R6 so that the needle emerges from the R6 in the point (fig. no. 4c).

Step 5
String 7x red R6 and thread the needle through the next R6 in the point (fig. nos. 5a and 5b). Do this one more time (fig. nos. 5c and 5d). You can strengthen the heart by sewing through it one more time.
